

WORK ACCIDENTS NSW

Medical treatment is the key

COMPENSATION EXPERIENCED GP'S

Compensation claims are technical. 95% of GP's hate dealing with pushy insurance officers. Some GP's love it, in fact they are experts in it. We work with a select few. You can still see your usual GP for common colds etc.

TARGETED MEDICAL TREATMENT

Injuries give rise to pain in other parts of the body. You may have suffered psychologically even though the accident was physical. Allow us to take care of the technical stuff. We're experts in compensation and work closely with specialists to make sure nothing is missed.

WE PAY FOR ALL MEDICAL REPORTS

Workers compensation claims are based on medical reports. It's our job to send you to the right doctors to obtain a mountain of evidence. This maximises the lump sum compensation the insurer must pay.

TPD SUPERANNUATION CLAIMS

Work accidents often result in the inability to work in your usual occupation again. We run TPD claims alongside your workers comp claim.
